

INTRODUCING FENICS MARKET DATA – SOLUTIONS

INFLATION DATA SOURCED FROM THE WORLD'S LEADING SPECIALIST IDBS

Fenics Market Data, winner of the 2022 IMD/IRD 'Best Market Data Provider,' is the exclusive information redistributor for BGC Group Entities, operators of multiple regulated trading venues globally. Fenics Market Data is uniquely positioned within the BGC Partners group of companies (BGC, GFI, RPMartin, Sunrise Brokers, Aurel & more). Our customers continually rely on our solutions to provide increased visibility into the wholesale trading activity behind these 'hard-to-price' financial instruments.

BGC Group's Interdealer brokers are the dominant leaders in the Inflation market. Given the rapidly changing market environment and the economic turmoil, there is an increasing and significant focus on the recent volatility in the **Global Inflation Derivative** and **Inflation-linked Bond** markets.

SPOTLIGHT ON INFLATION

Our Interdealer brokers are the leaders in the inflation market. The recent growth of their electronic central limit order books has created significant pools of liquidity from which clients can execute trades and mitigate risk. Their pricing information is continuously calibrated from this market activity. As the global economy begins to surge, our clients rely on Fenics Inflation data, which is available in two forms:

Pricing / Modelled

Consists of complete curves and surfaces powered by Fenics Market Data's in-house proprietary modelling technology and calibrated by the brokers using executable market observations.

Orderbook / Level 2 Data

Consists of complete and consolidated outputs of committed quotes, orders and trades from BGC Partners leading trading platforms.

INFLATION SWAPS & OPTIONS

COMPETITIVE ADVANTAGES

- Market intelligence from industry dominant inter-dealer brokerages
- Pricing data continuously calibrated to market activity
- Level 1 and Level 2 data is firm, and “capital-backed”
- Unrivaled scope and depth of coverage
- Timestamps and identifiers providing full audit trail
- Data coverage includes Inflation Swaps, Options, Bonds, Break-evens
- Order, trade, and IOI data from our leading IDB brands – outright and switch pricing

UNIQUE SELLING POINTS

- Dominant inter-dealer market share in the Inflation Market.
- Traditionally modelled pricing data involves a wide bid / offer spread. The growth of BGC Partners' hybrid and electronic trading venues has resulted in a large increase in firm and executable orders inside these indicative bid / offers. This pricing provides irrefutable reference points that can be used for the fine calibration of our proprietary models.
- Level 2 Insights provide pricing and liquidity metrics designed to provide ownership, audit trail and corroboration. Pre-aggregated, instrument level intelligence designed to convey complex market movements and dynamics in an intuitive and easy to consume format.

INFLATION PRODUCT SUMMARY

Product	Overall Coverage		Trading Platform		Level 1		Level 2		Fenics Market Data			Fenics Insights: Inflation
Package	BCC	GFI	BCC	GFI	BCC	GFI	BCC	GFI	BCC	GFI	FMD	Bespoke
Summary	USD Swaps: #1 with approx. 60-70% market share Consolidated offering from L1/L2 pricing & modelled datasets	GBP Bonds: #1 with 70% market share Consolidated offering from L1/L2 pricing & modelled datasets	Real-time prices available to broking clients via API – client approval required		Delayed broker data giving top of book orders (CLOB orders – no trades)		Consolidated tape of broker data giving top and depth of book (all orders CLOB and VM), plus historicals		Analytically driven data built using inputs from across the entire breadth of in-house broker data (provenance) including pillars and specifics. Market leading analytics create smooth surfaces, for liquid and illiquidity currency pairs – only F-O data offering available in regional coverage packages			Executable bid-offer and trade levels giving provenance and audit trail to corroborate analytic levels. Order and trade volumes, counts and liquidity scores give insights into market activity
