

SURVEILLANCE SOLUTIONS

In response to regulatory pressure (MiFID II, MAR, and Dodd-Frank) to expand the remit of surveillance to cover a broader range of asset classes, Fenics offers a series of Surveillance data solutions. Fenics offers data in fixed-income, and other over-the-counter (OTC) products that allows for:

- Access to the full depth and breadth of BGC Partners' multi-venue, consolidated order book
- The prospect of reduced surveillance alert generation and time for reconciliation
- Institutional and individual trader profile in the context of the marketplace
- Dominance reports at a granular, instrument level
- Additional, contextual market data
