

Access to the latest pricing is essential for making informed decisions for anyone involved in the Energy Markets. Fenics Market Data leverages the strengths of BGC Partners Energy businesses to offer an extensive range of data sets, covering physical and financial markets to help clients navigate the complexities of the energy sector. With our data, you gain access to daily and historical pricing in:

- Crude & refined products;
- Environmental;
- Natural gas & power.

If you would like to explore how your firm can leverage precise, high-quality market data, please get in touch with your local Fenics Market Data representatives.
