

European and UK Power & Gas Forward Curves

Overview

Fenics Market Data's European and UK power and gas forward curves service provides comprehensive, powerful, and independent forward pricing to support valuation, risk, and governance requirements for market participants.

Independent and unbiased forward curves supported by real trading activity allow our clients to act with confidence in power and gas markets across Europe.

Fenics Market Data's forward curves deliver trusted market insight derived from executable liquidity, supporting precise risk management and defensible valuation outcomes..

Key Features

Real Trading Activity

Pricing derived directly from executable trading activity and broker-calibrated market observations across BGC and GFI energy markets.

Comprehensive Coverage

Aggregated visibility across multiple European and UK power and gas markets, tenors, and liquidity pools.

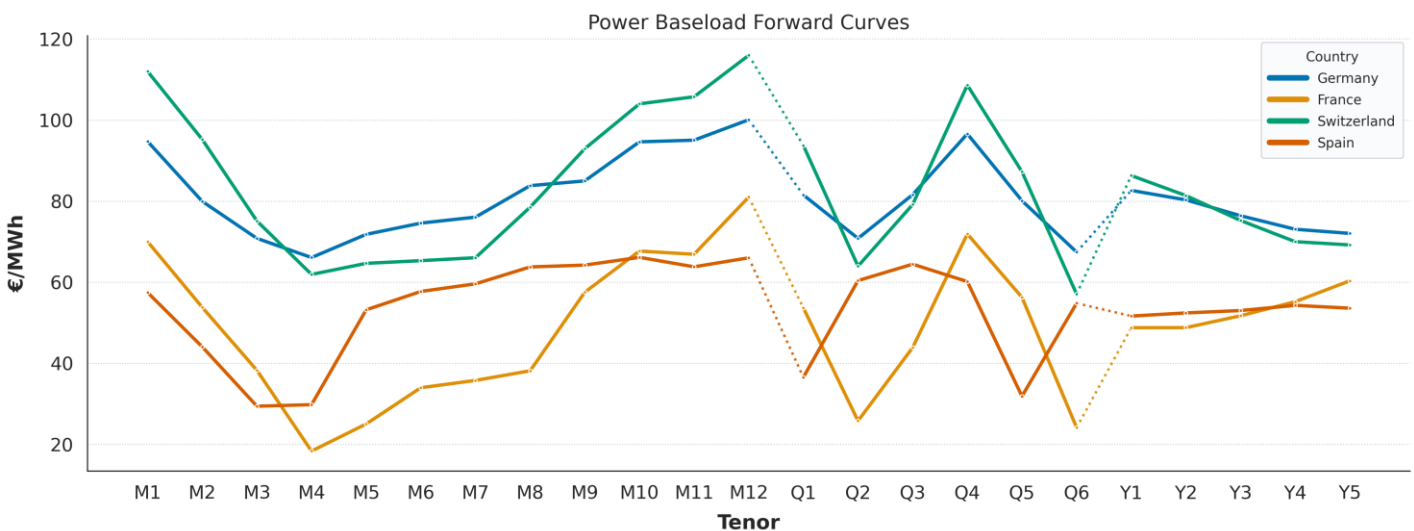

Consistent, Defensible Curves

Methodologically consistent forward curves designed to support valuation, risk, and governance requirements with confidence.

Built By Market Practitioners

Curve construction methodology designed by experienced energy brokers and specialists with deep, real-world trading expertise.
